

We are excited about our collaboration with the Manukau Beautification Trust to offer a series of PEST FREE PAPAKURA workshops for families in our community.

10am-11am

09/07/2024 Workshop 1: Learn about the impact of non-native animals, interventions and backyard pest tracking. Make your own tracking and chew charts to put into your backyard for a week.

16/07/2024 Workshop 2: Bring back your tracking and chew charts to identify which pests are in your backyard, learn how to set traps (adults only), and How to remove trapped animal. People who come to both workshops are automatically in the draw to win a wooden bird house kit set to take home.

Head to [www.sustainablepapakura.org](http://www.sustainablepapakura.org) to register now!

Email enquires to [activities@sustainablepapakura.co.nz](mailto:activities@sustainablepapakura.co.nz)

Hosted at the Sustainable Papakura Base: 47 O'Shannessey Street, Papakura

Help protect our  
*taonga*  
species!

**Two ways you can help make South Auckland pest free**

- ✓ **Set up and monitor your free rat and possum traps**  
Eliminate rats and possums in your own backyard. Manurewa and Papakura residents get free traps from the Beautification Trust!
- ✓ **Join a local volunteer group**  
Set traps and monitor rats and possums in your local parks and reserves. Free training provided!

**Get involved today**
